CONTENTS Volume 47 1996/1997

Volume 47 No. 1

Original research papers

Somatic embryogenesis, organogenesis and callus growth kinetics of flax
A.C. Gomes da Cunha, M.F. Ferreira **1–8**

Genetic analysis of leaf explant regenerability in *Solanum chacoense*
V. Van Sint Jan, G. Laublin, R.K. Birhman, M. Cappadocia **9–13**

The influence of local plant growth conditions on non-fastidious bacterial contamination of meristem-tips of *Hydrangea* cultured *in vitro*
A.C. Cassels, V. Tahmatsidou **15–26**

Improvement of somatic embryogenesis in zonal geranium
D.P.M. Wilson, J.A. Sullivan, A.A. Marsolais, M.J. Tsujita, T. Senaratna **27–32**

Somatic embryo cycling: evaluation of a novel transformation and assay system for seed-specific gene expression in soybean
Wennuan Liu, R.S. Torisky, K.P. McAllister, S. Avdiushko, D. Hildebrand, G.B. Collins **33–42**

***In vitro* chromosome doubling of nine *Zantedeschia* cultivars**
D. Cohen, Jia-Long Yao **43–49**

The initiation of callus and regeneration from callus culture of *Tulipa gesneriana*
I. Famelaer, E. Ennik, W. Eikelboom, J.M. Van Tuyl, J. Creemers-Molenaar **51–58**

Influence of exogenous proline on embryogenic and organogenic maize callus subjected to salt stress
M.A. Santos, T. Camara, P. Rodriguez, I. Claparols, J.M. Torné **59–65**

Genetic transformation of *Eustoma grandiflorum* by *Agrobacterium tumefaciens*
L. Semeria, B. Ruffoni, M. Rabaglio, A. Genga, A.M. Vaira, G.P. Accotto, A. Allavena **67–72**

Autotetraploid plants from colchicine-treated bud culture of *Salvia miltiorrhiza Bge*
S.L. Gao, D.N. Zhu, Z.H. Cai, D.R. Xu **73–77**

***Agrobacterium rhizogenes*-mediated transformation of scented geranium**
A. Pellegrineschi, O. Daviolo-Mariani **79–86**

Research notes

Plant regeneration from somatic embryos in black pepper
B. Joseph, D. Joseph, V.J. Philip **87–90**

Optimization of callus culture and shoot multiplication of *Asparagus densiflorus* L.
M. Benmousa, S. Mukhopadhyay, Y. Desjardins **91–94**

Erratum

***In vitro* culture of *Foeniculum vulgare*: callus characteristics in relation to morphogenesis**
M. Anzidei, L. Vivona, S. Schiff, A. Bennici **95**

Volume 47 No. 2

Original research papers

Effects of PEG-induced water stress on *in vitro* hardening of 'Valiant' grape
I. Dami, H.G. Hughes **97–101**

Micropropagation of mature British wild cherry
N. Hammatt, N.J. Grant **103–110**

An improved method for direct gene transfer and subsequent regeneration of *Arabidopsis thaliana* Landsberg *erecta* and two marker Lines
M. Torres, J. Siemens, M. Meixner, M.D. Sacristán **111–118**

Regeneration of plants via somatic embryogenesis from leafbase and leaf tip segments of *Echinochloa colona*
S. Samantaray, G.R. Rout, P. Das **119–125**

Effects of light, magnesium and sucrose on leaf anatomy, photosynthesis, starch and total sugar accumulation, in kiwifruit cultured *in vitro*
K. Dimassi-Theriou, A.M. Bosabalidis **127–134**

A risk assessment study of plant genetic transformation using *Agrobacterium* and implications for analysis of transgenic plants
C. Barrett, E. Cobb, R. McNicol, G. Lyon **135–144**

Separation and analysis of cell types involved in early stages of carrot somatic embryogenesis
M. Tsukahara, A. Komamine **145–151**

Regeneration of haploid plants from anther cultures of the Asiatic hybrid lily 'Connecticut King'
D.-S. Han, Y. Niimi, M. Nakano **153–158**

Production of parthenolide in organ cultures of feverfew
A. Stojakowska, W. Kisiel **159–162**

Stability of CaMV 35S-*gus* gene expression in (Bird's foot trefoil) hairy root cultures under different growth conditions
D.E. Cooke, K.J. Webb **163–168**

***In vitro* propagation of *Lens* species and their F_1 interspecific hybrids**
M. Ahmad, A.G. Fautrier, D.L. McNeil, G.D. Hill, D.J. Burritt **169–176**

Producton of peroxidases by hairy roots of *Brassica napus*
E. Agostini, S. Milrad de Forchetti, H.A. Tigier **177–182**

Cryopreservation of photosynthetic plant cell suspension cultures
X. Luo, J.M. Widholm **183–187**

Effects of γ-ray treatment on *Cannabis sativa* pollen viability
M. Zottini, G. Mandolino, P. Ranalli **189–194**

Research note

Effect of nitrogen supply on expression of some genes controlling storage proteins and carbohydrate synthesis in cultured maize kernels
D.C. Doehlert, E.R. Duke, L.J. Smith **195–198**

Volume 47 No. 3

Original research papers

Defense responses elicited in pine cell suspension cultures
M.P. Popp, M.S. Lesney, J.M. Davis **199–205**

Ca^{2+} and Mg^{2+} ions counteract the reduction by fosetyl-Al (aluminum tris[ethyl phosphonate]) of peroxidase activity from suspension-cultured grapevine cells
M. López-Serrano, M.A. Ferrer, M.A. Pedreño, A. Ros Barceló **207–212**

Establishing japonica rice suspensions retaining a high regeneration potential after 14 months of culture
Tao Wenjing, Liu Bao, Xing Miao **213–216**

The effect of different closure types, light, and sucrose concentrations on carbon isotope composition and growth of *Gardenia jasminoides* plantlets during micropropagation and subsequent acclimation *ex vitro*
M.D. Serret, M.I. Trillas, J. Matas, J.L. Araus **217–230**

Clonal propagation by *in vitro* culture of *Corchorus* (jute)
A.M. Abbas, J.K. Jones, P.D.S. Caligari **231–238**

Endogenous cytokinins as biochemical markers of rubber-tree *(Hevea brasiliensis)* clone rejuvenation
Y. Perrin, P. Doumas, L. Lardet, M.-P. Carron **239–245**

Multiple shoot formation from cotyledonary node segments of Eastern redbud
K. Distabanjong, R.L. Geneve **247–254**

Plantlets from encapsulated micropropagated buds of M.26 apple rootstock
E. Piccioni **255–260**

Influence of the ion-composition of the medium on alkaloid production by "hairy roots" of *Datura stramonium*
N.N. Sikuli, K. Demeyer **261–267**

Sucrose uptake and metabolism in a double layer system for micropropagation of *Rosa multiflora*
J. de Riek, A. Piqueras, P.C. Debergh **269–278**

Interaction of rhizobacteria with leafy spurge (*Euphorbia esula*) callus tissue cells
T. Souissi, R.J. Kremer, J.A. White **279–287**

Research notes

***In vitro* shoot proliferation of 5-leaf aralia explants from field grown plants and forced dormant stems**
G. Yang, P.E. Read **289–291**

Somatic embryogenesis in liquid cultures of a tetraploid *Alstroemeria*
M.J. Hutchinson, T. Senaratna, J.M. Tsujita, P.K. Saxena **293–297**

Author Index **299**

Instructions to Authors **301–303**

Volume Contents **305–308**
